SUMMARY

Nurturing critical areas of enrolled strength to provide quality care to patients. Over seven years of experience in emergency and trauma center care, post-care recovery. Firm information on medications, pharmacology, and standards of care in the emergency clinic or confidential work setting. A caring and trustworthy individual with a reputation for building excellent relationships between medical providers and patients. Committed to making patients more informed and comfortable during their care.

SKILLS

I am a devoted patient advocate, which means that I put the needs and care of the patient first.

Strong verbal and written communication skills are essential for this position because it frequently involves interacting with patients and discussing their care with other medical professionals.

As a skilled multitasker and organized person, I find it simple to manage the multiple patients on my caseload at once.

I have always been a dependable team player, which has given me the necessary attitude to desire to do everything I can to improve patient outcomes.

Excellent moral character and honesty when handling patient-related matters and delicate situations.

EDUCATION

Bachelor of science in nursing 2012
New York University Medical Center

WORK EXPERIENCE

REGISTERED NURSE NOVEMBER 2020 – PRESENT

- ❖ Recorded data on patients' diets, physical activities, progress milestones, and other details as they recovered from sickness in the hospital.
- ❖ Assessed the patient's degree of discomfort during their hospital stay and adhered to the doctor's prescribed treatment plan and medication regimen.
- ❖ Led a project with the hospital to generate proposals for better patient, family, and medical staff communication through community workshops.

REGISTERED NURSE APRIL 2016 – JUNE 2020

- ❖ After major surgeries, take care of patients by keeping track of their vital signs, giving them medication, and cleaning the surgical sites.
- ❖ When creating a plan for the patient's care and treatment during their hospital stay, work together with the patient's doctors, case managers, families, and other staff members.
- ❖ Manage the unit and floor as a supervisor, and assist in educating new nursing students who are finishing their internship tasks.

HOBBIES AND INTERESTS

International travel: make and plan annual trips to different countries to experience new cultures.

Cooking and baking: like to bake and cook on my days off. I have participated in a number of amateur baking competitions that emphasize creating unique cakes or cupcakes. I participated in cupcake wars, a popular baking competition program on the Food Network.
